Work Experience in Bury St Edmunds

I'm Giacomo Sonzini, I would like to tell you my friends' work experience here in Bury St Edmunds.

We are an Italian group, which comes from Marcelline High School in Milan and arrived here on the 10th of April 2016.

We are here in 16 school fellows with our teacher, and we have been divided in different families. Me and my friend Paolo live with Carol Spencer a kind and generous English woman whose house is not far from BLS school.

First of all, I'm glad about this experience because it can help me and my friends to improve speaking English, a language so important nowadays that we have to know perfectly since we attend a linguistic high school. Furthermore I think this experience will be very useful since allows us not only to know a new place, the nice

town of Bury St Edmunds but also new people while practicing our morning or afternoon works.

The day is divided in two session: in the morning some of us attend lessons at BLS school meanwhile others work in the shop assigned to them the first day, or vice

versa. My group which attends with me classes in the morning is revising the bases of English grammar for instance: future tenses, past tenses... and discussing about general things, like: "how will be the world within 2080?" or basic information about ourselves.

In the afternoon we had to work hard. In this story I'm the narrator, the writer tell you what my friends do here in Bury afternoon. Some of these works are funny other less the purpose to help you to find a job, in a future.

which is going to during the

but all of them have simpler way, in the

For example Giulia and Camilla love their job....

Oh yes!!!! They work in the Art Nails shop of the town, they spend their time taking care of the hands and feet of their costumers. Sometimes when the shop is empty they take advantage to get a manicure. Crazy girls!!!!

Then other works, less funny, have been assigned to Rebecca, Paolo and Viola.... They work as waiter in: LP, Casa Del Mar and Just Trade Centre

14th of April 2016

their work is more difficult but it is also very useful; learning how to serve costumers in a the kitchen

restaurant or washing the dishes in could be a teaching for the future!!

Last but not Vittoria, Miriam

Oxfam Bookshop

with their boss, Mrs. Deborah. There they learn how to deal a book store and how to order all the books.

least there are our intellectual girls: and Antoinette who work in the

To conclude my article I would like to thank BLS school to have allowed to attend this beautiful and useful experience perfect for teenagers,

us

since, in my opinion, nowadays people have to have the first work experiences starting from high school, in order to find in a easier way a job in his/her future, just after having finished university!!

Thanks a lot BLS, it has been a pleasure working with you!!
